## Celebrate Golden Wedding.

Mr and Mrs. Albert Carlson celebrated their golden wedding at their home in East Didsbury on Wednesday, when there was a large number of relatives and friends present. Swedish dishes were served and Swedish customs observed, and the guests had a delightful time.

Besides receiving the congratulations and best wishes of the guests and other friends the happy couple were the recipients of many presents.

Mr and Mrs. Carlson were married in Sweden on March 20, 1885 and shortly after came to the U.S., residing in South Dakota until 1903 when they came to Alberta.

They took land in the Harmattan district and farmed there until 1920 when they retired and moved to Didsbury, where they have since resided.

Five sons and one daughter were born of the union and four sons and one daughter are still living. Two sons reside at Harmattan, one at Cremona and one at Chicago, and a married daughter at Calgary.

We join with their many friends in wishing them many more years of married life.

## Knox United Church Notes.

At the invitation of the official board of the Knox United Church, Rev. J. R. Geeson, M.A., B.D., of Irma will occupy the pulpit at the Knox United Church at Didsbury and Westcott on Sunday, March 31st. All members and adherents of the church please attend to hear and meet Mr. Geeson.

## Town Council.

### Petition Presented Asking for Ratepayers Meeting

Delegations and a petition took up practically all of the time at the council meeting which was held on Monday evening. Mayor Chambers was in the chair and all the councillors were present.

Mr W. Smith appeared before the council on behalf of the coal dealers in town asking that the truck owners who were selling coal in town be requested to pay a license fee. The matter was thoroughly discussed and the secretary was instructed to write to the Department of Municipalities for a ruling on the question and to report at the next meeting.

Mr. C. H. Adshad, representing the Canadian Legion and Mrs. Lowrie representing the I.O.D.E. asked that the town take the lead in holding a celebration in honor of the King's jubilee on May 6. A tentative program of the celebration was presented. Mayor Chambers, Councillors Spence, Gooder, Fleury and Mr. W. A. Austin were appointed a committee to meet with delegations from other organizations to make arrangements for a celebration.

Mr. Ross Ford asked the council to make a small grant to the Musical Festival which is to be held in Didsbury during May. He explained that the object of the festival was to encourage musical studies amongst the pupils of both the town and rural schools. The council decided to make a grant of \$15.

A petition was received from Mr. Lynch-Staunton "on behalf of certain ratepayers" asking that a meeting of ratepayers be called to discuss a number of questions. Mr. Lynch-Staunton also stated that a copy of the petition had also been forwarded to the Department at Edmonton.

The council decided that a meeting of ratepayers should be held in the Opera House during the first week in April. The exact date of the meeting will be announced by the Mayor.

Three applications for old age pensions were approved. After passing of the bills and accounts in the hands of the secretary the meeting adjourned.

## Evangelical Church Notes

The Lenten meditation on Sunday morning will be on the subject of "Facing the Cross." In the evening the sermon will be, "Good News for Bad Times."

The Albright Brotherhood and the Senior League of Christian Endeavor will present a 3-act religious play, "The Rich Young Man," at the church on Thursday evening, March 28 at 8 o'clock. This will be the first appearance of this caste of thirty amateur players. Arrangements have been made to present the play in several adjoining towns following its opening here.

## On Jury Duty.

Mr. Bert Fisher was called to Calgary last week for jury duty and spent three days on a civil case.

Mr. J. A. Adam went to Calgary on Monday to serve on the jury in the criminal court.

## M.B.C. Church Activities

Monday evening saw the opening of a full week of meetings and services in connection with the M.B.C. Conference and Bible School closing exercises when "A Night of Song" was presented by the Bible School chorus conducted by Prof. Tink of Red Deer. The church was crowded to capacity.

The 75 voice chorus rendered hymns and anthems in a manner that was much appreciated by the audience, and was a credit to their leader. Solos were given by Prof. Tink and duets by Prof. and Mrs. Tink.

Tuesday the "Christian Workers' Convention" was held both in the morning and afternoon, and in the evening a missionary meeting was held and the message was given by Miss M. Finlay of West Africa.

The annual conference of the Church convened on Wednesday morning when there was a large attendance of representatives from all parts of the province.

The closing exercises of the Bible School will commence this (Thursday) evening when the 1935 graduating class will take the services in the church at 8 o'clock. Services will also be conducted by the Bible School on Friday evening.

The baccalaureate sermon will be preached in the church on Sunday afternoon at 3 o'clock by Rev. W. M. Redfield of Alsask.

The final event will be the graduating exercises, which will be held in the church on Monday evening, when Rev. F. H. James of Olds will give the commencement address, after which the graduates will receive their diplomas.

Smaller, but just as good as the old style, with nine distinctive color shades and denominations, the new Bank of Canada currency went into circulation recently with the opening of Canada's Central Bank. In size the new notes are fractionally shorter and a trifle wider than those in the United States. Denominations range from \$1 to \$1000.

Varying designs have been struck for all denominations, with the larger issues showing two of Canada's most famous prime ministers. The one-dollar notes are green; the two's a blue shade; the five's orange; the ten's purple; twenty's a deep rose; fifty's a brown shading to red; the hundred's chocolate-brown; five-hundred's of sepia hue and the thousand's an olive green.

## Mountain View Council Meeting

The organization meeting of the new council for Mountain View Municipality met at Olds on Thursday last. Reeve Flinn was in the chair and Councillors Dodd, Trimble, Archer, Saunders and Rupp were present.

The newly-elected councillors, Messrs Archer, Saunders and Rupp took oath of office.

Councillor Flinn was re-elected Reeve and Councillor Dodd was elected deputy-reeve.

Representatives appointed to the hospital boards were: Didsbury, Mr and Mrs. W. J. McCoy; Olds, Mr and Mrs. J. A. Dodd.

Mr C. E. Reiber was appointed auditor for the ensuing year.

Councillor Dodd was appointed delegate to attend the Alberta hall board convention to be held in Calgary this week.

The rate of pay for councillors was set at \$4.00 per day and 10c per mile for both meetings and supervision.

Rates of pay for labor on roads was set at: single man 35c per hour; teamsters 30c per hour; overseers 45c per hour; grader-men 45c per hour; teams 15c per hour; tractors 15-30 \$1.50 per hour, and larger size tractors \$1.75 per hour.

The grader-crews, Messrs C. Moritz, R. Dodd, D. Jenkins and L. Rear were re-engaged for the coming season.

The weed inspector was instructed to send out summerfallow notices on land which had been listed for summerfallow during the season 1935.

It was decided that the same program as last year be carried out with regard to gopher poison. Arrangements will be made with the dealers in gopher poison whereby they will supply farmers of the municipality with an equal amount of gopher poison to the amount purchased.

An application for the old age pension was approved, and several cases of relief were dealt with. Other matters dealt with consisted of routine business.

## St. Patrick's Dance

The St. Patrick's dance which is an annual affair given by the local Oddfellows has lost none of its popularity. Friday night's affair proved most successful. The hall was decorated with Irish colors and emblems and much of the music supplied by the Bolter orchestra of Calgary had an Irish flavor. Over 200 dancers enjoyed the novelty and old time and new dances. Many prizes were distributed.

## WEEKLY SERMONETTE

"The greatest fault of all is to be conscious of none"

## Woman Murdered Near Olds, Monday

Twelve-year-old Benjamin McConnell, who disappeared from his farm home after his mother, Mrs. Rose Edith McConnell, 43, had been shot to death Monday, was in police custody at Olds on Tuesday. He is held pending investigation of his mother's death.

Two shots, police found, had been fired at the woman as she worked in the farmyard. They had been fired from the interior of the house, each passing through a front window. The first shot struck a post in the yard and the second hit Mrs. McConnell. She died a short time later.

Royal Canadian Mounted Police were at the farm Tuesday conducting investigations. Dr. Hartman held the inquest Wednesday afternoon.

## Obituary.

### CHARLES WRIGHTSON.

The death of Mr. Charles Wrightson took place at the home of his daughter on Friday, March 15th. The funeral service was held at the Anglican Church on Sunday and the interment at Didsbury cemetery. The pallbearers were Messrs. A. Brusso, J. A. McChee, W. D. Spence, J. McDougall, S. Willis and D. Sinclair.

Charles Wrightson was born at Thornaby, Yorkshire, England, and lived for a number of years at Newcastle-on-Tyne, where he carried on a business as butcher.

He came to Canada with his family in 1909, living in Calgary until 1914 when he came to Didsbury. He retired about two years ago and since lived with his daughter, Mrs. H. Morgan.

Deceased was a Past-Master of Holmes Lodge, A.F. & A.M., Newcastle-on-Tyne, England, and was in the chair of the Addison Potter Chapter, Royal Arch Masons, when he left England.

He leaves his widow, two daughters, Mrs. A. M. Laing, Gosforth, Northumberland, England, and Mrs. H. Morgan, Didsbury, and one son, Charles J., of Innisfail; two sisters and a brother in Oregon, and nine grandchildren.

## GOPHER POISON!

### NOTICE

The Municipality of Mountain View, No. 310, has arranged with the dealers in gopher poison at Olds, Didsbury and other points, to supply an equal amount of gopher poison to that paid for by the farmers of the Municipality, the arrangements to be in effect to the 1st day of June, 1935.

The Council requests that the farmers place their poison early.

### Beware The Danger Spots

The inauguration throughout Canada of new social services, and the extension of social services already existing, are policies to which it is now clear all political parties in Parliament are definitely committed. Since the beginning of the present century there has been a steady growth, not only in Canada but in all countries in the number and scope of these services of a social character, and it is now evident that the people of this Dominion are in favor of more and still larger and comprehensive services of this character.

This development is in line with modern trends and the new conception that all the people are responsible for the welfare of each individual citizen. We refer to this as a new conception, yet it is as old as civilization itself. Man is his brother's keeper and if and when man fails to discharge that responsibility to his fellowmen, then the very civilization which protects him will collapse. So it is that the great majority of people will be found to welcome the introduction and enlargement of a national programme of social services.

There are, however, one or two danger spots in connection with such a programme which the Canadian people will be well advised to recognize at the outset. These services are to be helpful to us as individuals and as a nation; let us therefore beware that they do not actually prove harmful.

The first danger to avoid is, that in our enthusiasm and commendable desire to provide social services, and to establish them upon a generous scale, we do not overdo it, and embark upon programmes which may prove to be beyond the financial capacity of the Canadian people to maintain. Social services such as old age pensions, mother's allowances, unemployment insurance, free medical services, etc., will cost an enormous amount of money annually. Some of these services are already costing the Federal and Provincial Governments many millions of dollars, but present expenditures are undoubtedly small in comparison with the cost of proposals now being advanced.

Each and every one of these social services can be provided and made possible by just one method, and that is taxation. That is, the community as a whole must through the payment of taxes provide the money which will be distributed through one social service or another to the people who are in need of such service. If fifty million dollars are required for, say the payment of old age pensions throughout Canada, then taxes which will yield fifty million in revenue to the government must be imposed and paid by the people. There is no other way. This fact must be recognized, together with the further fact that there is a limit beyond which people cannot pay taxes, and any social or other service which depends upon government taxes beyond that limit will find itself in difficulty.

Once established, experience has proven that these social services grow very rapidly and that expenditures largely increase. This experience indicates a second danger spot. It is this: So long as individual man and woman are required to look out for themselves and plan for their future, they will, as a rule, work, exercise some degree of thrift, and save against sickness and old age. In a word, self preservation will be one of the guiding rules of their life. But once it becomes an accepted and established fact that people will be provided for whether they are at work or not, that the community will care for them and all their ills if and when sick, and that the community will support them throughout their old age and bury them when they die, then there is grave danger that the incentive which is now the great driving force in our human nature will become less keen, weaken and gradually die.

### DON'T RISK BAKING FAILURES . . .

"YOU CAN'T BAKE GOOD CAKE WITH INFERIOR BAKING POWDER. I INSIST ON MAGIC. LESS THAN 1¢ WORTH MAKES A BIG CAKE,"

says MADAME R. LACROIX, Assistant Director of the Provincial School of Domestic Science, Montreal.

Canada's best known Cookery Experts and Dietitians warn against trusting good ingredients to poor-quality baking powder. They advise MAGIC Baking Powder for sure results!

CONTAINS NO ALUM—This statement on every tin is your guarantee that Magic Baking Powder is free from alum of any harmful ingredient. Made in Canada

### Champion Bricklayer

Philip Lancaster, 24-year-old foreman in a brickyard at Hull, England, lays claim to the title of being the world's champion bricklayer. He laid 3,000 bricks in four hours, a record, he says. In the first hour he laid 908, a little better than 15 a minute.

### HE FELT MISERABLE AFTER MEALS

### Acute Indigestion Relieved by Kruschen

The treatment which put this man right must surely be worth trying in every case of indigestion. Read what he says:—

"Two years ago I suffered very much from indigestion, loss of appetite, and a most severe pain in my back. Food soured in my stomach. I felt most miserable after meals, and had no desire or appetite for them. A friend advised me to try Kruschen Salts. I did so, and I am most happy to testify that after a short time I felt the greatest relief. I continued taking Kruschen till I felt myself quite better and a new man. I feel as light-hearted as I did twenty years ago."—W. B.

What Kruschen did for him it will do for everybody else who suffers from indigestion as he did. The fact is that "the little daily dose" of Kruschen first stimulates the flow of gastric juices to aid digestion, and then ensures a complete, regular and unflinching elimination of all waste matter every day.

### Ancient Stronghold Found

### Viking Guards Did Not Allow Women In Garrison

A 1000-year-old Viking stronghold never visited by women is the discovery of Dr. Holger Arbman, who has been excavating at Sweden's ancient capital, Birka. That the Viking guards forbade women to enter this garrison is inferred because no single scrap of a woman's ornaments or apparel has been found in the ruins. On the other hand, Dr. Arbman has unearthed remains of the men's arrowheads and many knives and animal bones left from the meals of the guardsmen.

### No Turkey At Aklavik

The Winnipeg Tribune says turkeys at Aklavik, according to a radio dispatch from the tiny ice-bound settlement, would have been valued at \$1.50 a pound—if there had been any turkeys. There weren't, so the white and native trappers ate roast caribou and wild cranberries for Christmas and New Year's dinners.

W. N. U. 2086

### Little Journeys In Science

#### COSMIC RAYS

(By Gordon H. Guest, M.A.)

Glass becomes negatively charged when rubbed with catskin, but positively charged when rubbed with silk. Also, a strip of celluloid becomes negatively charged when drawn between the fingers. In order to detect and measure the electric charges on any substance scientists have devised an instrument known as the electroscope. A simple type of electroscope consists of a bottle with a paraffin stopper, through which runs a piece of glass tubing. Passed through the glass tube is a piece of brass or copper wire from which are suspended two strips of gold leaf. A ball made of tinfoil is attached to the other end of the wire and is, of course, outside the bottle just above the paraffin stopper. Whenever the ball is given either a negative or positive charge the leaves fly apart in proportion to the amount of the charge. A rubber comb rubbed on a cat becomes negatively charged and if the comb is placed on the tinfoil ball some of this charge is imparted to the electroscope and the leaves will fly apart. Since the charge is negative, another negative charge will cause the leaves to spread still farther apart, whereas a positive charge will cause the leaves to fall together before again flying apart. In this way the kinds of charges may be determined. When even the best of electroscopes are charged it is observed that the gold leaves slowly come together again. This means that some electrically charged particles from the atmosphere are neutralizing the charges on the leaves. Scientists set out to discover what was causing this discharge of an electroscope and found that it was due to certain rays which came to the earth from outer space. They are called cosmic rays.

Many attempts have been made to stop the natural leak or discharge of an electroscope. These attempts have always failed despite the use of the most perfect insulators and the protection of the electroscope by lead shields, several feet in thickness. These experiments suggested that there exists an unusually penetrating radiation of feeble intensity.

Scientists have carried electroscopes to points near the two poles of the earth, at the equator, and at various other latitudes. Electroscopes and similar indicating and recording devices have been sent up into the air in sounding balloons to altitudes of over 20 miles, and have been carried to altitudes of 25,000 feet by airplanes in various localities and have been taken to high mountains as well as to depths as great as 1,000 feet in lakes. All experiments show that the rays come from above the earth and so they have been called cosmic rays. Outstanding among the various investigators in this work are two American scientists, Millikan and Compton.

### Congress Demands Respect

### Persons Laughing At Chilean Parliament Will Be Arrested

Laughing at the Chilean parliament is now a punishable offence. Chile's deputies were annoyed at the increasing fun which was being made of congress and their debates. They especially objected to remarks made by members of the public in the gallery and in the precincts of the parliament. At the request of the chamber of deputies, therefore, the premier has given instructions to the police to arrest any person who is heard to "take in vain the name of the honorable congress."

"We're going to Ogden's, Sirs," they said!

Choice mild, mellow leaves only go into Ogden's Fine Cut... to make a cigarette tobacco that always gives a smoother, cooler, more satisfying smoke.

Try Ogden's. And choose the best cigarette papers... "Chantecler" or "Vogue". You can't beat that combination for all-round pleasure in "rolling your own".

## Water Project Is Outlined For The Rehabilitation Of Large Drouth Areas In Western Canada

The formation, as a measure of protection against future drouth periods in the western provinces, of water districts with water available to the farmer for domestic and other uses, just as it is to the usual city householder, was suggested by T. C. Main, A.M.E.I.C., of Winnipeg, in a paper presented before the annual convention of the Engineering Institute of Canada.

Mr. Main's paper throughout dealt with the question of the conservation of water. This he considered as one of the three principal ways of assisting nature to rehabilitate the drouth area, the other two being, respectively, improved methods of cultivation and the planting of trees and hedges.

The problem, he contended, is now of more than local or provincial interest, as it is difficult to visualize a high degree of prosperity for Canada as a whole while the great agricultural area of western Canada is in its present serious condition.

He pointed out also that drouth is a potential enemy to the entire country from the Rocky Mountains to Ontario, and from the international boundary to as far north as agriculture may go. "Records show," he stated, "that precipitation in general decreases from south to north in our western country. Furthermore, the land north of the North Saskatchewan river is for the most part lighter than in the south, hence, with lighter land and less precipitation, the north country is in greater danger than the south of becoming desert, once the tree growth is eliminated."

Although up to the present the average production of cereal products in Saskatchewan alone has been sufficient to furnish a population of 40,000,000 people with that important part of their daily ration, it would seem that the population of the prairie regions, say south of the 54th parallel, may ultimately be limited by the amount of water that can be conserved rather than by the amount of food that can be produced.

"A striking paradox in this land of plenty," he stated, "potentially one of the wealthiest countries in the world, is the present disparity in the standard of living as between urban and rural citizens. The standard of living on many farms is much too low; lower in many respects than that of the peasantry of Europe. The latter at least enjoy a community life, social intercourse, the aesthetic advantages of trees, streams, lakes and natural or artificial beauty in many forms. These, for the most part are denied to the denizens of our western prairies.

"Living conditions could be greatly improved by conserving surface water; by forming artificial lakes and by creating water districts to serve rural communities with that precious commodity in much the same way as urban communities are now served."

A study of precipitation and runoff data indicated that irrigation on a large scale was out of the question. "It was suggested," stated the speaker, "that an ideal arrangement would be to provide water under pressure, say along each alternate north and south, or east and west, road allowance, in a given water district. Water would be furnished first for domestic use in the home, thus tending to raise the standard of living; secondly, it would be piped to the barn and elsewhere for the use of stock; thirdly, water would be available for say an acre or two of garden, providing vegetables for home consumption and for sale, and roots for hogs, etc.

Fourthly, sufficient water should be made available for irrigating from 15 to 25 acres of hay per quarter section. When the market for wheat was poor, or in the event of a periodical drouth, they (the farmers) would still have their garden truck, a few head of stall-fed beef steers, some fat hogs, poultry, eggs, milk and cream to carry them through. Even in the event of a depression, when such produce is difficult to dispose of at a profit, they would at least have enough to eat and so would

not be a burden on other taxpayers for relief, as at present.

"The tragedy of the drouth area is not that farmers failed to produce large quantities of wheat; indeed, it was a godsend in disguise that they did not do so, as the world supply was apparently too great. The sad part is that they had nothing to eat, chiefly due to lack of water for stock and for growing vegetables for themselves, and feed for cattle, hogs and poultry. Under the system proposed above water would be available in the cities, towns and hamlets, as well as in the rural areas, and it is calculated that on the average 120 acre-feet of water per annum for each section of land would supply the rural requirements."

A number of specific projects for the formation of water districts were discussed from the point of view of their possibilities and limitations. These were studied during the course of a reconnaissance trip made by the author for the Saskatchewan government a few years ago. They included one major project and a number of smaller ones. The major project related to the holding of about 100 feet of water on a dam across the South Saskatchewan river near Riverhurst, developing power thereby to lift 1,000,000 acre-feet per annum into a reservoir in the Vermilion hills from whence it could be discharged to Moose Jaw, Regina, Weyburn and southward to the international boundary.

As a basis for the proper study of these projects, a comprehensive report on the geology and ground water resources of the prairie provinces should be prepared. Too little is known about these resources at present, and Mr. Main considered that farmers, engineers and others were wasting a great deal of money and effort in costly experiments trying to find satisfactory ground water in various parts of the country.

In the projects outlined, of course, there was the inevitable question of cost. On this point the speaker stated, "Seventy-five per cent, at least of the rural population of this vast area, with their horses and machinery, have been practically idle for several months each summer for two, three or even four years. If this power could have been utilized during that period, all the projects suggested, and many more, could have been completed, and each completed project would have added to the real wealth of the nation."

### The Summerside Fox Ranch

#### Discover Efficient Method For Control Of Parasites

A great deal of work has been done at the Experimental Fox Ranch, Summerside, P.E.I., of the Dominion Experimental Farms, in order to find efficient methods for the control of external parasites, particularly fleas and earmites. It has been found that the best means of controlling external parasite infestation is to spray the kennels, nests, and all the woodwork of the pens with kerosene oil. If this is done three times a year there is little need of using either insect powders or carmide solutions.

Further experimental work has been carried on to ascertain the time of year it is advisable to supplement the rations with vitamins A and D to counteract a rachitic condition and to produce a good growth of pups; also to obtain other information regarding the advisability of the addition of these vitamins to the ration. As the result of further experiments, new information has been obtained regarding the influence of protein content of rations on the development of fur. Experiments have been conducted to ascertain if dried meat, meat meal, and fish meal could replace fresh meats during the summer months, and work is in progress to determine the iodine requirements of silver foxes in captivity.

A cheerful liar, a writer believes, is to be preferred to the absolutely reliable man who tells the truth that hurts.

### Has Become Very Popular

#### Tomato Sales Show Remarkable Increase In Ten Years

The change in public opinion with regard to the fashions in food is well exemplified by the tomato. Not so many years ago the tomato was an object of suspicion, to-day canned tomatoes and tomato products constitute the largest of Canada's canneries. Indeed, the story of the tomato is one of the epics of Canadian trade.

Ten years ago it was one of the least important of the food commodities sent abroad by Canada. By 1927 the export of Canadian canned tomatoes rose to what is now considered a mere 300,000 pounds. In 1934 nearly 10,000,000 pounds were exported to 31 different countries, 18 of which are British. The British Isles alone took 9,000,000 pounds, Ontario, Quebec and British Columbia are the provinces in which the commercial production of tomatoes for canning purposes and fresh sale is of greatest importance. The total acreage is approximately 20,000 acres. A dependable cannery demand, even though this demand varies, is also of importance to those growers producing for the fresh vegetable market. The grower, therefore, as pointed out in the agriculture situation bulletin, issued early this year, is vitally interested in both the domestic and export demand for canned tomatoes and tomato products.

#### Something To Know

Legs of tables and chests soon dig into the kitchen linoleum and leave permanent marks. To prevent this, get from your neighborhood shoe repair man a strip of composition such as he used to renew worn down heels. Cut neat "heels" for your furniture, tack them on with headless nails that will sink down inside, and there will be no more scarred floors. Heavy felt will do as well as the composition material, except for very heavy furniture.

## Zoning For Fertilizer Needs For Cereal Production In The Three Prairie Provinces

### War Veterans Well Treated

#### Says Canada Has Done Fairly Good Job In Caring For Ex-Soldiers

Brigadier-General Alex Ross of Yorkton, Sask., Dominion president of the Canadian Legion, told a service club at Ottawa that "Canada on the whole has done a fairly good job of caring for her ex-soldiers."

General Ross declared "what we need most to-day is a greater sense of responsibility. There should be less dependence on government assistance and more dependence on individual effort." He praised voluntary work of Australian veterans on behalf of children of soldiers who died during or after the war.

He said he would like to discourage the idea that Canada is seriously at fault in treatment of war veterans and added that at the recent biennial conference in Australia of the British Empire Service League he found no other part of the Empire had done more for its soldiers than Canada.

### A Wonderful Garden

#### Large Amount Of Work Being Done In Canberra, Australia

Canberra, Australia's made-to-order capital, is rapidly becoming one of the garden cities of the world. Two and three-quarter million trees and shrubs, forty miles of hedges, and 20,000 roses have now been planted. Every tree and flower has been placed like a piece of mosaic according to the plan conceived by Walter Burley Griffin, the Chicago architect, and the walks, gardens and boulevards comprise one of the largest landscape gardening layouts ever attempted.

A series of fertilizer trials, covering the grain producing portion of Manitoba, was undertaken during the years 1929, 1930, and 1931, the results of which suggest a zoning for fertilizer requirements of cereals when the "drilling-in" method is used on the Canadian prairies. The practice of drilling-in fertilizer with the seed, which has proved to be one of the most important contributions to cereal production in Western Canada, was introduced into the West in 1928 says "Scientific Agriculture." Prior to that, commercial fertilizers were applied by the broadcast method. In the fertilizer trials, which covered nine agricultural districts, individual records were compiled and three types of response were noted: (1) to phosphate; (2) to phosphate with smaller increases in nitrogen; (3) to both nitrogen and phosphate, with a local tendency for potash to give increased yields.

The response to nitrogen decreased from north to south, whereas phosphate gave response throughout. Potash gave no significant response in any of the prairie soils. Where increases were secured from nitrogen alone, ammonium sulphate proved superior to sodium nitrate. The three types of response coincide with the three major soil belts, and hence the zoning for the fertilizer requirements of wheat in the northern prairie region is indicated, namely: (a) phosphate in the southern belt; (b) phosphate with small amounts of nitrogen in the northern portions of the northern prairies; and (c) nitrogen and phosphate in the wooded belt, with the addition of potash where required on local soils only.

### Migration Of Birds

#### Canada Goose From Jack Miner Sanctuary, Shipped To Winnipeg Last Spring, Killed In North Carolina

Each year Jack Miner tries a new experiment studying the migration of birds and their knowledge of travel. Last spring, with the co-operation of the Manitoba Government and the Department of Interior, Ottawa, with Mr. Carl Munn of the Hamilton Bird Society, and the Winnipeg Free Press bearing the expense of crates and express, he caught twenty-five Canada geese and shipped them via fast express to Winnipeg, where they were met with a truck and taken to Grant Lake, in that vicinity, where they were released with a flock of several thousand western wild geese.

About one month later, one of these tagged geese was reported killed by a native in Northern Manitoba, near the west shores of Hudson Bay; but nothing more was heard from them until December 20th, when one was shot at Grandy, North Carolina—its usual winter home. In other words, it left the western geese and went back to North Carolina, along the Atlantic seaboard, to join its parents, sisters, and brothers, where it has always spent its winters; because the geese that visit the Jack Miner bird sanctuary at Kingsville, Ontario, Canada, located 25 miles south-east of Detroit, Mich., in the spring, mostly winter along the Atlantic coast, chiefly around Currituck Sound. Nearly every year Jack Miner has geese killed in that vicinity, at the same town address as this bird was shot.

The report of this goose going back to its same winter quarters, was a surprise to Jack Miner, because he believed that when they travelled nearly 1,500 miles in an express car and were released with western geese, that they would stay with the western flight, and perhaps be shot west of the Mississippi.

Commenting further on it, Jack Miner said this incident is something for scientists to carefully study, in order to fathom the knowledge of this goose in spending the summer in the Arctic region after being released in the Northwest, and then finding its way back to its usual winter quarters in North Carolina.

Now that it has been proven that these geese go back to their usual winter home, there is every possibility that some will be recaptured at the Miner bird sanctuary this coming spring.

Out of 1,700 of Miner's banded geese killed during the last 12 years, over 99 per cent. of the number were shot east of the Mississippi. What makes the experiment doubly interesting is the fact that this goose having been shipped to the far Western country, now lands back and is shot in its old winter home. This gives us all something to think about, as to the knowledge possessed by these birds in regard to travel or migration.

## The SNAPSHOT GUILD

IS YOUR LENS CLEAN?

With a clean lens, plus proper exposure, you should always get sharp, clear pictures such as the ones above.

The Guild has received a number of letters from fellow photographers complaining about smudgy looking pictures. They say they know their exposures are correct and developing done carefully with fresh, clean chemicals.

Granting that all this is true, true next thing to consider is your lens. Is it clean? You have looked through dirty eye-glasses with probably a few finger prints on them. If you haven't it's a sure bet that you have experienced the difficulty of looking through a smudgy window. Clean eye-glasses and clean windows give clear vision and similarly the camera cannot "see" so well if its eye (the lens) is cloudy and smudgy from grease, finger prints and dust collected over a period of months.

Cleaning a lens is a very simple operation. All you need is a soft, unstarched linen handkerchief and perhaps a match or pencil, if the lens is quite small. The rear surface of the lens can easily be reached by removing the back of the camera. If the camera has a double lens (one behind and one in front of the shutter diaphragm), the front combination may be removed by turning to the left, which will allow you to work through the shutter opening when set for "time," with the handkerchief over the end of the match or lead pencil. If the lens is quite dirty breathe on it and then rub quickly with the handkerchief. Be sure, when replacing the front lens, to screw it back into the shutter as far as it will go.

The suggestion to work through the shutter opening also applies to cleaning the front surface of cameras with single lenses fitted to box cameras and certain folding models. Handle the lens carefully and don't exert too much pressure. It isn't necessary and might scratch the surface.

The amount of pleasure you get out of your camera depends almost entirely on how much thought and care you give it.

Picture taking is just like golf, tennis, basketball or bowling—the more you experiment, the more thought you give to your hobby, the greater your reward in self satisfaction.

There are many good books available on amateur photography but one of the latest off the press is called "How to Take Good Pictures." It is packed with sound advice for the beginner or the advanced amateur and profusely illustrated with pictures of every type, diagrams and what have you. It might be called "The Amateur Photographer's Reference Book," but don't think for one minute it is as "dry" as such a name might imply. You can no doubt purchase this book from stores that sell cameras and photographic supplies.

If you know your camera—its limitations or its versatility—give careful thought to composition and story-telling possibilities you are well along your way to take pictures as interesting and sharp as the two shown above.

JOHN VAN GUILDER.

## Correspondence.

To the Editor:

A stalwart man, he still fights on. The hair from off his crown is gone. He works and talks for this reform. To help all men of women born.  
—That's William Aberhart.

In reply to Mr. Wigglesworth (the anti-social credit guy) may I say that I think his exaggerated notions of world-wide conditions and probable reforms are well-nigh intolerable. He says that better times are slowly but surely returning. Surely, he has been listening to "Mr. R.B.'s bedtime fairy stories" (reform). Allow me to inform him that a man of Mr. Aberhart's calibre and extensive education isn't in the habit of telling bedtime fairy stories, but leaves that to the children's broadcast time, and probably Mr. Wigglesworth listens-in at this particular time. Being a true man of God Mr. Aberhart is above broadcasting yarns, but instead devotes his leisure time endeavoring to make the path of life more rosy for his fellow-men by preaching first to their spiritual welfare, and secondly endeavoring to give everyone a fair show in life. Mr. Wigglesworth, may I inform you that I never had admiration for Mr. R.B.'s policies. You infer that according to me ten per cent of the people of Didsbury are still capable of managing their own affairs, you included. If so it is a wonder the ten per cent don't choose you as their private advisor, for I'm sure they would soon emerge out of this depression, as you are no doubt a buddie of superior mental force.

So you maintain that those people who entertain any socialistic ideas do not use their hands or brain to get themselves out of their difficulties, but demand legislation that will relieve them of all responsibility, even though the trouble is of their own invention. Under the Social Credit plan everyone will get food, clothing and shelter. Then, and not till then, can we raise a stalwart class of people as we need for Alberta. Moreover, we don't expect to be relieved of all responsibility, but will get rid of some of our present economic evils, none of which are apparently bothering you.

Our strongest agitator for social reform, Mr. Aberhart, at no time gambled on wheat and got a wallop. If we had a clean, sane government such proceedings would be highly punishable.

You also say that this Social Credit propaganda is likely to make a frivolous race, devoid of backbone. No, Mr. Wigglesworth, it will give them backbone, as many will find employment, whereas now there isn't any work to be had for many of our young folk, and consequently their moral standard is suffering. I say build up a people's standard of morals and we have no misgivings as to that country's future. We are not merely going to turn this province upside-down and inside-out, but give it a good coat of disinfectant which is long overdue. And I hope it will be about 80 per cent strong. I say out goes Mamma Government and all those who hang on to her strings, reform and all. My motto is, "Social Credit for Alberta as advocated by William Aberhart."

Thanks, Mr. Editor,

HUGHIE ROBERTS

## Westerdale Notes

Residents of Westerdale have formed a "credit group" and meet regularly every Saturday night. President, Charlie Gale, Vice President, George Jackson; Secretary-Treasurer, Mrs. Walter Herbert; Directors, Ralph Jackson, Lou Boles and Billie Ross. Only a few were present last week Saturday on account of the blustery night. Everybody is enthusiastic over social credit in this neighborhood. The straw votes taken two weeks ago went 86 per cent.

Born, to Mr. and Mrs. Ralph Jackson, in the Olds Hospital, a son.

Mr. Frank Babki went to Calgary on Monday last for a truckload of machinery, he intends spending the week with his father there.

Mr. Harry Jackson is out west for a change, logging.

## Westcott Notes.

The Westcott Women's Institute met at the home of Mrs. Earl Klinck on February 8th. As usual the meeting was opened with O'Canada after which the business of the institute was transacted.

It was decided to commence work on a wool comforter fall bazaar. It was also decided to present a bed comforter to Mrs. B. Artman, an ex member of the institute who has been confined to her bed for some time. It was thought it would be a very useful gift.

Mrs. B. McFarlane gave a very interesting paper on "Agriculture" and Mrs. R. Webster gave a splendid three minute talk on the "League of Nations."

Recitations were given by Margaret Klinck and Donald Robertson. The meeting closed with the National Anthem and lunch was served by the hostess.

The next meeting will be held at the home of Mrs. Jack Robertson.

### Week in the Legislature

By T. B. Windross

The most dramatic and important, as well as the most interesting happening in the Alberta Legislature during the last week, was the address of former premier J. E. Brownlee, who faced the ordeal of his first speech to the house as a backbencher after 14 years of cabinet leadership with courage and outstanding ability.

In a clear, comprehensive and forceful speech he replied to critics of the administration and, whatever opponents may think of his policies in the past, or of him as a public man, there can be no denying the fact that by long odds he proved himself to be the ablest of orators and debaters in the house.

When the former premier rose to join in the budget debate he was given a rousing greeting by members of the U.F.A. benches, in which a few of the smaller groups in the opposition joined. His speech was punctuated several times with applause, and when he finished he was given the only real ovation any member has received during the present session, Liberal, Labor, Independent and Conservative members joining with the U.F.A. in prolonged applause.

Friday, Hugh C. Farthing, Conservative of Calgary, took occasion to defend the R.C.M.P. against the charges of Donald MacLeod, U.F.A. member for Stony Plain, who said some of the police were ruthless in the discharge of their duties and had been intoxicated while on duty. Mr. MacLeod had declared the force was too military in its character and training, and to this Mr. Farthing replied that training in discipline was a factor that made for care and steadiness in emergencies. A well disciplined force was less likely to act hastily than an undisciplined force. He complained that some people are ready on all occasions to make charges against the police. The R.C.M.P. perform a necessary and essential work, often while exposed to personal danger and at great sacrifices.

The agricultural committee of the house has been spending considerable time in probing the relief question and trying to assist the members in arriving at a solution of some of the difficulties facing the problem. Evidence regarding relief strikes in the camps is being heard and complaints regarding clothing, food and shelter at the camps is also being heard. Four mornings this week will be devoted to this inquiry.

Up to the present there is no indication whether Wm. Aberhart, Social Credit exponent of Calgary will appear before the members of the legislature. No announcement has as yet been made of the acceptance by Mr. Aberhart of the legislature's invitation, but some word of this may be revealed during the present week.

Debate on the budget is still in progress and likely to continue a few days longer, although nearly every leading member in the house has been heard. There are several others yet who would like to have their say about the provincial treasurer's refunding plan, outstanding proposal of the session so far.

There are so few new things that enter into the budget debate after the different party leaders have had their say that it is difficult to see the necessity for carrying on with it. Each new speaker stresses the same points in his party's view of the situation, just as the preceding one did, often in almost identical the same words, so that a debate, lacking such incidents as the first speech of the former premier's, becomes an increasingly dull affair. Charges and denials of the same thing are the outstanding features throughout the debate. Few members seem able to discover the new and untalked-about angles to the budget, but they will get down to details when the estimates are taken up, it is to be presumed.

W. Harry Ross, Liberal, Calgary, joined in the debate following Mr. Brownlee's speech and attacked the government strongly for alleged losses through the U.F.A. administration of the province's business.

### NOTICE

N.E. 1/4-14-31-2W, 5th Alberta.

Tenders marked 35392 addressed to V. R. Jones, Esq., Clerk of the Court, Court House, Calgary, will be received up to 11 o'clock in the forenoon of Saturday the 6th day of April, A.D. 1935 for the purchase of the above property.

Location: 1 1/2 miles from Didsbury, 1 1/2 miles from school. Soil: Black Loam 12" to 18" 130 acres under cultivation, 40 acres summer-fallow. Buildings: House 18 x 20 frame in good condition.

Horse Barn 18 x 20 with addition 6 x 12 log and frame, fair condition. Cow Barn 23 x 26 frame and log. Granary on skids 12 x 14 frame. 3 miles fencing 2 and 3 wires. Good water supply.

Terms of Sale—5% with tender, 10% on acceptance of tender, 10% within 60 days, without interest, and the balance in three equal instalments in 6, 12 and 18 months from the date of acceptance of tender, and such payments to bear interest at the rate of 7% per annum, or all cash at option of purchaser.

In all other respects the standing conditions of sale will apply.

Tenders must be accompanied by marked cheque for 5% of the amount of the offer which will be returned in event of non-acceptance. No tender necessarily accepted.

For further particulars apply to W. A. Austin, Barrister and Solicitor, Didsbury, Alberta.

Dated at Calgary this 8th day of March A. D. 1935.

V. R. Jones, Clerk of the Court.  
Approved, H. W. Lunney, J.S.C.

Now Ready—Good Quality Writing Pads, 100 Sheets 25c Pioneer.

There were more echoes of the expenditures on automobiles and the increase or decrease of taxation and other matters, but while the Calgary member spoke well, he did as everyone else has done and contributed nothing new to the discussion.

## QUICKEST METHOD TO RELIEVE A COLD

1. Take 2 Aspirin Tablets.

2. Drink full glass of water. Repeat treatment in 2 hours.

3. If throat is sore, crush and stir 3 Aspirin Tablets in a third of a glass of water and gargle. This eases the soreness in your throat almost instantly.

### Follow Directions to Ease Pain and Discomfort Almost Instantly

When you have a cold, remember the simple treatment pictured here . . . prescribed by doctors everywhere today as the *quick, safe way*.

Because of *Aspirin's* quick-disintegrating property, Aspirin "takes hold"—almost instantly.

Just take *Aspirin* and drink plenty of water . . . every 2 to 4 hours the first day—less often afterward . . . If throat is sore, use the *Aspirin* gargle.

But be sure you get *ASPIRIN*. It is made in Canada and all druggists have it. Look for the name Bayer in the form of a cross on every *Aspirin* Tablet. Aspirin is the trade mark of the Bayer Company, Limited.

DOES NOT HARM THE HEART

### Danger On Highways

#### Open Road Often Tempts Motorist To Excessive Speed

Straight stretches of rural highway vie with city street intersections as the general scene of the greatest number of Pennsylvania motor vehicle accidents, says Capitol News. Thus far this year 184 persons were killed and 7,460 were injured in 10,606 collisions at street intersections. On the open highways, where the lure of high speeds draws unwary drivers to the brink of danger the Division of Safety reports 9,051 accidents, including 502 fatal and 5,354 non-fatal have occurred.

### TELLS EXPERIENCE BEFORE A NOTARY

Mrs. Albert Aubry, 1605 Maisonneuve St., Montreal, relates in a sworn statement how Fruit-a-tives bettered her health. She now enjoys life after years of poor health and, so you may be sure of its truth, Mrs. Aubry tells of her experience in a statement made under oath. She says,—"I was troubled for years with dizzy headaches. My bowels did not function regularly. I had no appetite. I had no sleep. It was difficult for me to do my work. I tried a great many laxatives but found most of them too violent. Finally I started taking Fruit-a-tives. In a very short time my health became greatly improved. I now enjoy life much more than before I learned about Fruit-a-tives." Copy of Mrs. Aubry's complete sworn statement will be sent on request. Write Fruit-a-tives Limited, Ottawa, Canada. FRUIT-A-TIVES—25c and 50c EVERYWHERE

### FALSE TEETH

**DR. WERNET'S POWDER**

### New War Film

#### Picture, Released By Government, Will Portray Canada's Part In The Great War

Following a private showing of Canada's anti-war film before the prime minister and members of the cabinet recently, the government has formally authorized its release.

The picture, "Lest We Forget", is being sponsored by the Canadian Legion, with government approval.

The theme of the film is Canada's part in the Great War, but it embraces the whole conflict in a wide sweep. Its purpose, chiefly, is to portray the sordidness and stupidity of war and in so doing no effort has been made to "soft-pedal" its horrors. Ghastly spectacles of the European battlefields in the course of various engagements bring home the stark tragedy of war, and its futility.

All of the film is the property of the government. Some of it is 25 years old, resurrected from the archives of both allied and formerly hostile countries.

Some early battle sequences are re-enactments, made years ago under the authority and direction of the British government; but most of it is the Canadian official film taken by the staff of Lord Beaverbrook when he was director of the Canadian records office in London during the war.

The picture is now in its last stage of having the sound effects inserted. These will be the spoken narrative, with a background of music appropriate to the sequences.

### Car With Rear Engine

#### Running Boards And Exterior Lamps Are Eliminated

The "Scarab," first rear-engined car offered for popular consumption in the United States, has been introduced formally to the American public.

William B. Stout, aerodynamics expert internationally famous for his aeroplane and streamlined locomotive designing, announced that he would build 100 "Scarabs" this year.

Running boards, exterior fitted lamps, immovable passenger seats are eliminated. The car has more interior room than any popularly priced car, Stout claims. Engine noise and odor are reduced by placing the motors in the rear.

### Chinese Finds Queer Spider

A spider with a human face has been discovered in Chumtien, Honan. Its body is small, but its head is abnormally large. The face is dead white, with black eyebrows and a black nose. White lips add to the horror of its appearance; its feet are dark brown. A well-to-do Chinese found the creature in his house. He has sent it to the people's educational institution.

"I received twenty proposals before I was married."

"Heavens! Wasn't your husband persistent!"

O.K. BY ME!

"Fresh and mellow, lasting, too, Dixie Plug is the smoke for you. I've tried them all and I'll agree That Dixie Plug's O.K. by me!"

PLUG SMOKING TOBACCO

### Damage From Motor Boats

#### Cause Waves Which Are Menacing Buildings In Venice

Fears that the appearance of motor boats in the canals of Venice, Italy, would injure the buildings, have been realized. Venice is built on piles, and a committee of architects has found that the pounding of the waves made by the "put-put" boats has weakened the piling. At least \$5,000,000 will be required to repair the damage already done, and immediate action is necessary to save many beautiful buildings from collapse.

Scientists have found "regulators" of animal growth. Tests on salamanders give a clue as to why ears do not grow as big as hands.

### ARE YOU RUNDOWN, AILING?

Mrs. John Blackmon of 5 Victoria St., Stratford, Ont., said: "My health failed, I had weak and dizzy spells, had an all-gone feeling, poor digestion and was constipated. After taking Dr. Pierce's Golden Medical Discovery the stomach trouble and constipation were corrected, and I had no more dizzy or faint spells." New size, tabs. 50 cts., liquid \$1.00. Write to Dr. Pierce's Clinic, Buffalo, N. Y., for free medical advice.

**TELL YOU HOW TO COOK CAULIFLOWER**  
*without the neighbors knowing it*

Wrap it in Canapar cookery parchment. Seal in the aroma, flavor and goodness all at once. Cook your boiled or steamed FISH in Canapar. Line your roasting pan with it. It prevents fats and juices from burning and makes the meat more tender.

Canapar saves fuel . . . improves food . . . and eliminates scraping and scouring of pots and pans. You can use Canapar over and over again. It will not absorb odors. It makes a wonderful dish cloth, being silky and very tough when wet. Doesn't shed lint.

## THE TENDERFOOT

By  
GEORGE B. RODNEYAuthor of "The Coronado Trail",  
"The Canyon Trail", Etc.

## CHAPTER XII.

Duro Stone summed up affairs fairly accurately as he headed for Seco. That summary included Joe Carr, Frank Crewe, the Hour-glass, Dustin, Kane (whom he knew not) and Edith! He grinned a little as he realized that she was not to be judged by any ordinary standards. Yet . . .

"The dirty hound. . . . He wants to marry her. . . ."

That appealed to his sense of humor and he chuckled.

"To be sensible. . . . If I can. . . . How can I blame another man for wantin' to do what I want to do myself? Dog-gone it! It makes me tired. I've spread my rope from Canada to Mexico and now I've come to the end of the trail. . . . Suddenly he knew that, if Edith Carr was at the end of that trail to welcome him, he wanted no other trail.

"All the same that man Dustin's a dirty hound," he muttered. "Now to try to find out what I want. . . . Here's Seco. . . ."

Seco was an ordinary cow-town with a courthouse in the middle of a square from which the rest of the town radiated. He parked in front of a small frame building that bore the sign:

## SECO COURIER

Evan Jameson, Editor and Prop.

"If any information is to be had it ought to be in a newspaper office," he muttered. "If he hasn't got an encyclopedia I don't know who will have one."

A slouching man rose from a half-reclining position across a desk and eyed him as he entered. Stone grinned affably and thrust out a hand.

"My name's Stone," he said pleasantly. "I work for Carr at the Hour-glass. Are you Mr. Jameson by any chance?"

"Not by chance, by design and for my sins I think," said Jameson with a sour grin. "What can I do for you?"

"Have you got an encyclopedia in the office and if so, will you let me consult it?"

"Over on the shelf yonder," said Jameson. "Help yourself."

He watched curiously as Stone took down volume after volume. When he replaced the last with a sigh of disappointment, Jameson became frankly curious.

"Can't you find it?" he asked.

"It's not in the book. . . ." Stone perched on the desk and rolled a cigarette. "Maybe you can help me, Mr. Jameson. Have you lived long in this part of the country?"

Jameson went to the dusty window and pointed to the great bulk of Myrant Peak that thrust above the skyline.

"When I first came here," he said, "that peak was just a hole in the ground. It's grown up since then. I haven't. You say your name's Stone? Are you the man who slapped a drink of whisky in Corse's eyes in the Silver Dollar?"

"I reckon I did," said Stone, grinning. "Sometimes I'm mighty careless where I throw my heel-taps. Why?"

"It was you, too, who had the quarrel with Sam Dustin and who dumped him into Soda Springs, hey?"

## YOUNG MOTHERS

A clean, happy, youthful, illustrated newspaper. 5 sections -- in fact, 5 newspapers in one -- every week--Entertainment--Amusement--Information for every member of the family.

34 colored comics

STAR WEEKLY

Stone nodded. He wondered how and where Jameson had learned of that. Jameson enlightened him.

"My wife heard it. . . . from a friend and she told me. I haven't said a word about it. I thought it best. Maybe I can help you about that item you want in the encyclopedia," said Jameson shortly.

"First of all. . . . Do you know an old desert-rat named Kane?"

"Who? Dad Kane? Old man Shammy-skin Kane? They call him that because he always wears a shirt made of chamois skin. He says he can use it with his mercury to try out his gold ore. . . . when he finds it. Of course I know him."

"Is he straight?"

"Absolutely. That is, he's perfectly honest except in minin' matters. He's queer though. Tell me what these questions mean."

Stone thrust a hand deep into his coat-pocket and kept it there while he studied Jameson. He liked what he saw and his face broke into a pleasant smile.

"I've been on the Hour-glass payroll for four months now," he said irreverently.

"It's a good outfit," said Jameson. "I'm sorry they've had so much hard luck. Now take Joe Carr. He's a fine old fellow but he has dropped behind in the race for money and he will never catch up. He just don't know what it's all about. He's got a good outfit, too, but a good body can't help if the head is gone. Of course he's got a good man in Frank Crewe. They don't make many men like Crewe. . . ."

"And Edith. . . ." said Stone tentatively.

Jameson's grim face instantly lit with a light that there was no mistaking. Even the silence answered Stone's half-formed question.

"Yeah," said Jameson quietly. "Edith. . . . What about her?"

"Crewe told me that, while Edith was out riding with me, that man Dustin came over to the Hour-glass. He saw old man Carr and told him that he wants to marry Edith. . . ."

Evan Jameson, the lanky editor of the moribund paper that certainly could not support him, threw himself across his desk and grabbed at Stone's arm.

"Tell me that again," he said earnestly. "See if I'm hearin' right."

Stone told him curtly and every word sank in. Jameson nodded once or twice and seated himself on the edge of the desk.

"You listen to me," he said quietly. "You've been some months at the

Hour-glass. You must know how things are out there. . . ." Stone nodded. . . . "I thought so. I've heard a lot of you. . . . From. . . . Oh, from some people and what I've heard I like. . . . Wait. . . ." He stopped Stone's attempted speech.

"I'm a married man, Stone. I've got the finest wife in the world and we've got two kids. One's a boy named for me. The other's a girl, Mabel; named for her mother. Some day when you have kids of your own, you'll understand what I'm tryin' to tell you. . . . Last year the boy was taken mighty sick while I was away. Edith Carr only knew us fairly well but she stopped in from time to time to see if she could help. Mabel. I was over at Wilton longer than I expected and I couldn't get back. The third day Sim Young came in from Seco and told me the boy was down with a bad case of diphtheria. . . . You may guess what that means in a place like Seco. Our only doctor then was a horse-doctor and he was generally full. I got back as soon as I could make it. . . . It had been a cold night and Edith Carr, hearin' how sick the boy was, spent it with Mabel. They spent that night tryin' to cook the poison out of him. . . . You know how it is I reckon. Know anything about diphtheria?"

Stone shook his head.

"It stops up all the tubes and chokes the person to death. You've got to be right on the job. . . . Mabel was played out. . . . She was sick, too. . . . The boy was taken sick in the night an' Mabel. . . . Well,

she says frankly that she lost her nerve and didn't know what to do. . . . She stood there watchin' the boy choke to death before her eyes. . . . That's when Edith Carr came in! She saw what was takin' place. . . . She saw Mabel couldn't help herself. . . . She pushed Mabel out of the room, pulled the rubber tube off a hot-water bottle and stuck it down the kid's throat. . . . Then. . . . By God, Stone. . . . She sucked it clear! Do you get that? She gave him back his life. . . . Any need to ask what we think of Edith Carr?"

There was no need. After one brief glance at Jameson, Stone knew that he could "go the limit."

"I'll tell you why I want to find old Man Kane," he said.

He perched on the desk and told Jameson of his first row with Dustin. He told him of the fight with Corse and Gray in the hills above the ranch. He told how he found old Kane's lost notebook and of the trip that he took with Edith. Finally he laid on the desk the pieces of rock from the mine.

"I can get Buxton right here in town to assay 'em," said Jameson. "He'll will not talk if I tell him not to. . . . Go on. . . ."

"Well. . . . we were riding home when Dustin, who had been at the Hour-glass, came peltin' down the trail and tried to ride me down in the golpe de caballo. His horse must have slipped or something for Dustin was upset. (Jameson's eyes gleamed at that.) While he was lyin' there unconscious, I went through his pockets. I found a note from Joe Carr to Pegram of the Seco bank for eleven thousand dollars. Pegram had sold it to Dustin. Then, when I got to the Hour-glass, Crewe told me that Dustin had come there to tell Carr that he wants to marry Edith. . . ."

"Well. . . ." Jameson's voice took a tool edge. "Go on. . . ."

"Then I took the car and came here. . . ."

"To look for something in an encyclopedia," said Jameson.

Stone grinned. "You stick to the point, don't you? Look here. . . . And he laid on the littered table an envelope and the cigarette that he had taken from Dustin's pocket. He emptied the envelope on the desk and fingered the contents--three or four stubs of burned cigarettes and a little pile of brown dust. Then he picked up the whole cigarette that he had taken from Dustin.

"These are not tobacco," he said. "I found the stubs in the camp where Kane must have gone with Dustin.

Or else Dustin was there alone. I don't know. I want to find Kane. This stuff may be marahuana. . . . I don't know it. I know it is not tobacco in any form. Do you know it? I was lookin' for marahuana in the book."

Jameson crumbled some of the stuff between thumb and forefinger; made a face and spat suddenly.

(To Be Continued)

## U.S. Population

Census bureau figures disclosed that the population of the United States has jumped up nearly 20,000,000 since 1930. The latest census estimate places the population at 141,574,000 people, compared with the 1930 census of 122,775,046.

## If You Eat Starches Meats, Sweets Read This

They're All Necessary Foods -- But All Acid-Forming. Hence Most of Us Have "Acid Stomach" At Times. Easy Now to Relieve.

Doctors say that much of the so-called "indigestion," from which so many of us suffer, is really acid indigestion. . . . brought about by too many acid-forming foods in our modern diet. And that there is now a way to relieve this. . . . often in minutes!

Simply take Phillips' Milk of Magnesia after meals. Almost immediately this acts to neutralize the stomach acidity that brings on your trouble. You "forget you have a stomach!"

Try this just once! Take either the familiar liquid "PHILLIPS", or, now the convenient new Phillips' Milk of Magnesia Tablets. But be sure you get Genuine "PHILLIPS".

Also in Tablet Form:

Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tiny tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

PHILLIPS' Milk of Magnesia. MADE IN CANADA.

Many residents eager to learn more about the topic of the day Social Credit listened with intent interest to the splendid lecture given by Mr. H. J. Unwin in Community Hall on Tuesday, March 12th. He explained the principles of social credit in a very clear manner and how it could be put in operation in Alberta emphasizing the point of unity in the movement and the importance of the people's vote at the forthcoming election. Mr. H. Roberts acted as chairman. Following the meeting the local group held a short session electing delegates to attend the conference at Acme on Friday March 22nd. Those elected were Mr. and Mrs. B. A. Atkinson and H. Roberts.

**GOPHER POISON!  
NOTICE**

The Municipality of Westerdale No. 311, has arranged with the dealers in gopher poison at Olds, Didsbury and other points, to supply an equal amount of gopher poison to that paid for by the farmers of the municipality, the arrangements to be in effect until the 1st day of June, 1935.

The Council requests that the farmers place their poison early.

A. McNAUGHTON, SEC.-TREAS.  
Municipality of Westerdale  
No. 311

A forty-mile ski race, a forty-mile snowshoe race, motorcycle ski-joring, figure skating, ladies and men's hockey, championship speed skating, pony ski-joring, trap-shooting, ski-jumping and many swimming events in the warm pool, will be featured at the elaborate winter carnival at Banff on the week's programme beginning February 14.

Sailing recently on her fourth annual cruise around the world, which will take 330 days, with calls at thirty-three ports in twenty-four countries, Canadian Pacific Atlantic flag ship, Empress of Britain, left New York with close on 400 passengers. She will return to New York late in May.

Honoring Captain A. J. Halley, R. N. R., who retired from command of the Canadian Pacific liner Empress of Canada after thirty-four years with the C.P.R., shipmates and shoreside friends presented him with an engraved wrist watch at a luncheon recently aboard the ship. Captain Halley left the sea with forty-four years of service behind him on the seven seas.

**LOCAL & GENERAL**

Miss Maisie Sinclair of Olds spent Sunday at her home here.

Mrs. Fred Befus left last weekend for Edmonton and the Peace River district.

Mrs. McCoy and Mrs. N. S. Clarke spent the weekend visiting friends in Edmonton.

Premier Reid has renewed his invitation to Mr. Wm. Aberhart to submit a Social Credit plan to the legislature.

Murray Kendrick, who is attending the Mount Royal College in Calgary, spent the weekend at his home here.

Several persons who signed the petition presented to the Council have requested to have their names struck off the petition.

Mr. and Mrs. Jack Morgan of Calgary, and Mr. and Mrs. C. J. Wrightson of Innisfail, attended the funeral of Mr. Charles Wrightson on Sunday.

Mr. Henry Erb wishes to announce that he has been appointed local representative for the Alberta Nurseries, of Bowden, and will handle all their lines (104)

St. Cyprian's Women's Auxiliary will hold a whist drive and social evening at the J. D. Thomas home Wednesday, March 27. Everybody invited.

Mr. and Mrs. Percy Lunt spent several days in Calgary last week. Mr. Lunt attended the Grand Lodge of Alberta, IOOF, as representative of the local lodge.

The Westcott Players have always had the reputation of giving splendid performances, and comedy is their long suit. Save the date, Monday April 1st at the Opera House.—In aid of the hospital.

Dr. Clarke left Tuesday for Calgary where he will attend the Alberta Chapter of Royal Arch Masons. Dr. Clarke has been elected as Grand Superintendent of the Grand Chapter.

Mr. Arthur Brewster, who has spent the last three months at his home in England, returned Thursday last. He sailed on the Duchess of Bedford, which had a very stormy passage. However, he came through alright and is now enjoying telling the story.

Mrs. W. S. Durrer entertained at a tea and social afternoon Thursday last in honor of Mrs. Herb Rennie who is leaving shortly to make her home in Calgary. Fifteen guests were present and all expressed their regret on losing the Rennie family but wished them prosperity in their new home.

A very interesting and instructive WCIU meeting was held at the home of Mrs. H. M. Reiber on Thursday last when a study of the plan of work for the different departments was taken up. About twenty members were present and at the close of the meeting a dainty lunch was served.

The president and members of the Zella Sewing Circle wish to express their sincere thanks to Mr. Ranton, also to Mr. J. V. Berchert for their very generous supply of clothing, both from their own homes and stores, the more so because these gentlemen have so many calls upon them. The Circle also thanks Mrs. D. Edwards and Mrs. Kercher for the large box of clothing received.

For those persons who have been unavoidably missed in the straw vote on Social Credit, and for those who still care to vote, there will be ballots and ballot boxes left open at the following places: R. E. Lantz office, D. Sinclair blacksmith shop and the A. Schwesinger residence. Mr. Henry Erb informs us that the canvas for the straw vote is now completed.

The salesman had succeeded in selling an expensive all-wave radio set and was mentally spending the commission when the customer said: "There's one adjustment I'd like to have made."

"Yes, madam?"

"We're not fitted with electricity. Will you have it converted to gas?"

Paying 2c Per Bushel Premium on No. 1 Wheat Delivered at Mill—Didsbury Milling Co. (7ufu)

**Melvin Notes**

Mrs. McLeod of Bowden and Mrs. Tom Finley from east of Town spent Sunday with Mr. and Mrs. August Krebs. Mrs. Harold Bliss and daughter returned to Bowden with Mrs. McLeod to spend a few days with friends.

We are sorry to hear that Mrs. G. Carlson has been very ill for the last two weeks but is resting more comfortably today.

Miss Doreen Farrant is spending a few days with Miss Gladys Carlson.

Mr. Ezra Weigand of Sundre spoke on Social Credit at the School on Saturday night.

A number of the ladies of the district spent a very enjoyable afternoon on Thursday with Mrs. Peter Johnston and Marion.

The dance last Friday night at Melvin was well attended. The club will hold another dance on Friday, March 29th. Halliday's orchestra.

Don't forget the whist drive on Tuesday night, March 26.

Miss Lillian Kyncl who had spent the week with Mr. and Mrs. August Krebs returned home Sunday.

Miss Rae spent the weekend at her home.

Mr. and Mrs. Roy McNaughton and Gordon spent a few days last week in Calgary.

Mr. and Mrs. McMurray and Eva called on Mr. and Mrs. Carlson on Sunday.

Messrs. H. Rae, C. Larson and R. Lick spent Sunday with Mr. Ranald Johnston.

Mr. and Mrs. Alex McNaughton and Mr. and Mrs. Johnson of Calgary were dinner guests with Mr. and Mrs. Roy McNaughton Sunday.

Our new neighbors, Mr. and Mrs. A. Grenier and family from Calgary, have moved to the John Clarke farm and we take this opportunity to welcome them to our district.

**Burnside Notes.**

Mr. and Mrs. Bill Thompson spent a couple of days this week with Mr. and Mrs. Chris Ehret.

Bill Jenkins is recovering nicely from his operation for appendicitis.

Mrs. Archie Weber spent a few days last week with Miss Sadie McLean.

Albert Davidson returned home Tuesday from the Didsbury hospital where he has been taking treatments.

Mr. and Mrs. Alex Moore and Mrs. Rev. Ruby Moore were Tuesday visitors with Mr. and Mrs. W. Lyons.

There will be a whist drive at the home of Mr. and Mrs. Bert Pross on Saturday evening, March 23rd.

Don't forget the dance in Lone Pine Hall on March 29. Calgary Orchestra.

Mr. and Mrs. Neil Gill have been among us for two years, and at last they are being visited by a certain young gentleman. Why?

Lone Pine W.I. met at the home of the secretary, Mrs. N. Eckel Thursday last with an attendance of 44. A splendid paper on "Home Economics" was given by Mrs. Melvin Liesemer. Five dollars was voted to be sent to the Salvation Army, Calgary. Miss Zook accompanied by Miss Alberta Metz sang two very pleasing songs. The president then presented Mrs. N. Eckel who is a charter member of the branch and has been a member ever since it was formed, with a silver and pyrex casserole. Mrs. Eckel is celebrating the 25th anniversary of her marriage this month. Other gifts were also presented by members. Mrs. Eckel thanked the members and friends for their gifts and kind thoughts and said it had been a pleasure to work for and with the W.I. members. After singing "For She's a jolly good fellow" lunch was served and a pleasant afternoon was closed.
